There is some encouragement in the thought that the silver dollar must go.

There will be a good many democratic sheriff in training during the next four years.

Has any one heard anything of Carl Schurz since the election? The late Carl Schurz of singular memory!

The country is expecting every day to hear of Hendricks making the statement, that he wrote the emancipation proclamation.

The New York senatorship is going begging for brains. The office generally begs for brains, but brains never beg for the office.

Wiggins says we are going to have a mild winter. This is pretty positive evidence that the winter will be different than Wiggins predicts.

It is now in order for some crank who is yearning for notoriety to jump from the top of the Washington monument It is only 552 feet of a jump.

There is a growing sentiment that the Spanish treaty will not be ratified. The senate will object to the United States making Spain a present of $20,000,000, or $25,000,000 about Christmas time.

When Eli Perkins said he never saw a drunken man in all Bavaria, he didn't lie as many supposed he did. The reason he never saw a drunken man there was because he was never in Bavaria.

Colonel W. F. Vilas called on the president elect the other day and left his post office address. Of course there was no political significance about meeting the new president. There never is about such meetings.

Colonel Ingersoll is still tramping around the country asking in his lecture what he shall do to be saved? If Bob had asked the question concerning the republican party during the past campaign instead of deserting his leader, he would have had the credit of asking a very sensible question.

It is said that Postmaster General Hatton will assume editorial management of the Chicago Times at the expiration of his official term, that paper having been purchased by a leading official of the Chicago, Burlington and Quincy railroad. If Hatton gets that position there won't be room for many more people in Chicago.

It is said that Senator Bayard has been offered the portfolio of secretary of state. If a democrat must have that office there is no man in the east who would do the office more honor than Mr. Bayard. Of course he has a war record that can't be chanted very enthusiastically by the loyal people, but it is a little better record than the vice president has.

The great industries of America form the subject of a series of articles which will commence in the January number of Harper's Magazine with a paper entitled "A pair of shoes," written by Howard Mudge Neuhall, a leading shoe manufacturer in Lynn. This article "begins with the beginning and ends with the end," tracing a shoe from the existence of the skin on the back of the animal through the treatments of tanning and currying which make it leather, and so on amid the scores of processes which, in these days of the division of machine labor, do each its part towards making the complete shoe. A pair of shoes, it seems, contains forty-four separate pieces, and goes through the hands of perhaps a hundred people, although it costs the wearer but two or three dollars. One hundred and thirty thousand people are employed in this industry, and their average earnings are somewhat over $220. These industrial articles are planned to give, in readable fashion, a clear idea of how the important articles of industry are made, who make them, how much they earn, and how they live; in short, to inform Americans how they are clothed, fed and otherwise served in these days of machinery, and how their fellow-Americans earn their respective livings. This enterprise is directly in line with the Harper ideal of informing while interesting the great body of the people.

### FROM THE GRAVE TO THE ALTAR

Some time ago Miss Estelle Newman, of Egemont, Massachusetts, took sick and was supposed to have died. She was buried in due form, but on the night following the funeral, two or three medical students who had been acquainted with Miss Newman, concluded to take the body from the grave for dissection The grave was opened and the body of Miss Newman was placed in a sack and taken by train to Albany, New York and when it was placed upon the dissecting table, signs of life appeared which startled the students. Immediately they went to work to restore life, and succeeded after much labor, but when the restoration was effected the young woman was found to be insane.

The story is that she was taken to Bellevue hospital, New York, where she remained a while under skilful treatment She was then taken to a physician in Schoharie county and after two years became sane. She was so completely restored to health and reason that a short time ago she married the nephew of the physician in Schoharie with whom she stayed after leaving Bellevue hospital.

H. Worth Wright, one of the students who assisted in robbing the grave, died a few days ago in Connecticut, and on his death-bed confessed to have participated in taking Miss Newman's body to Albany. The Springfield Republican expresses considerable doubt as to the truthfulness of the story. But an investigation shows there is as much truth in it as sensation.

It is not impossible that this story of Miss Newman's rising from the grave and being led to the altar can be true. There have been hundreds of cases reported of persons "coming to life," after lying apparently dead for two or three days. Charles Reade has given us several instances of suspended animation, especially in animals, and if this has occurred in animals, why not in human beings?

### THE NICARAGUAN CANAL SCHEME.

A correspondent asks the Gazette for information regarding the comparative cost of the proposed canals across the isthmus which connects North and South America; and he also asks why the cost of the Nicaraguan route is estimated at $100,000,000, if Lake Nicaragua is nearly a hundred miles long, and can already float the largest vessels, while the entire route is but 181 miles.

In reply to these questions, the Gazette will say that no detailed estimate of the cost of the Panama canal has been published. The estimates have been many and various. They have been put as high as $400,000,000, and not lower than $200,000,000, and the time necessary to construct it has been estimated by M. DeLesseps at six years, providing that 6,000 men work 250 days in a year.

The cost of the Nicaragua canal has never been estimated above $100,000,000, and in fact, Chief Engineer Menocal, who has paid much attention to the Nicaraguan scheme, reckons the cost at $68,000,000 in round numbers, and on a more recent survey his figures have been reduced to $41,193,000.

Lake Nicaragua, through which this route will pass, is stated by Menocal to be 56½ long. Its waters are are very fresh and are of sufficient depth to carry vessels of the deepest draft. The entire middle division of the proposed canal, which embraces Lake Nicaragua and the distance of 56½ miles, can be put in readiness to receive ships without an outlay of more than $700,000.

It may be well to state here that this scheme is growing in popular favor. It is more practicable than the Panama route and vastly more economical. Even congress is beginning to wake up on the subject, and there is yet hope that the government will take hold of the enterprise.

### NOTABLE JOURNALISTIC ENTERPRISES.

The cabling to the New York Times, from Madrid, the entire Spanish treaty with the United States, is one of the most remarkable instances of journalistic enterprise on record. There have been three especially great pieces of newspaper work in this country, and not one has ever been recorded by the English press. During the Franco-Prussian war, the New York Tribune made private arrangements to receive by cable full particulars of the battle of Gravelotte, fought August 18, 1870. It was a mightily graphic account of that noted engagement, and from the battle-field itself to the Western Union office in New York city, the Tribune was in supreme command of the telegraphic line. Within six hours after the ending of the battle the full account thereof was in type in the Tribune office some ten hours in advance of any other paper in the world! It paid $5,000 in gold for the cable dispatch.

In the summer of 1871 the senate of the United States was engaged in a private and solemn session on the Washington treaty. The doors were locked, and no living soul except the senators and the officers of the senate were allowed in the chamber. It was near mid-night when the treaty had been read and discussed and the executive session closed. The senators thought they were shut out from all the world during their grave deliberations on that memorable night. But here and there is a journalistic eye that never sleeps and an ear that is never deaf. Within a half hour after the grave senators left the chamber, seventeen telegraphic lines were carrying that treaty from Washington to the New York Tribune as a strictly private message. By five o'clock the last word had reached that paper, and instantly the keyes were opened at Washington and there went all over the land the surprising and proud congratulations, "Hurrah for the New York Tribune and the Washington treaty!" and the response came from the Tribune office on the wings of the lightning and went into every state, 'Hurrah for the Tribune's Washington correspondents and the Western Union!" Every other morning journal in the country felt mad at being beaten, but the Tribune paid several thousand dollars for its enterprise.

The other day the New York Times tried to get the full text of the Spanish treaty, but finding it was impossible to secure the document in Washington it opened negotiations by cable with a gentleman in Madrid, who agreed to secure a copy for $2,000. It was at once ordered, in spite of the fact that cable tolls are sixty-six cents a word, and reached New York in small sections on Sunday afternoon and evening. It was translated from the Spanish and revised in time for Monday's paper, since which time it has been the news sensation of the year. The entire cost was $6,616.

These three instances here given are the most brilliant and costly journalistic feats ever known in the history of journalism.

### A FEAST OF FAT THINGS

**In Celebration of Mr. Cleveland's Election—Letter From Beecher.**

NEW YORK, Dec. 13.—A banquet of business men and merchants to celebrate the election of Cleveland and Hendricks was given at Delmonico's Friday night. Hon. John P. Town presided. Among the invited guests present were Hon. Carl Schurz, Senator Jones of Florida, Gen. Gordon of Georgia, Governor Waller of Connecticut, Governor Abbott of New Jersey, Horatio C. King, Col. Brown and Mayor-elect Grace. Covers were laid for 150. Letters were read from Senator A. P. Gorman, chairman of the Democratic executive committee; Hon. W. E. Smith, chairman of the state executive committee, and Rev. Henry Ward Beecher. Mr. Beecher wrote as follows:

BROOKLYN, N. Y., Dec. 9, 1884.—MY DEAR SIR: I have two engagements for Friday, the 12th, already, and could not possibly sandwich in a third. I am hopeful of the future. I trust that Mr. Cleveland will select for his cabinet men that are not candidates for the presidency; men that will work cordially with him, and harmoniously with each other, men whom Republicans can respect, Democrats admire, and all people trust. I believe that we have outlived the element of sectionalism and that all friendly controversies in congress or before the people will hereafter be waged on sound national politics, not sectional animosities, and that grace, good will and prosperity will take the place of the clouded days of war.

[Signed] HENRY WARD BEECHER.

Speeches in response to toasts were made by Governor Waller, Gen. Gordon, Governor Abbett, Carl Schurz, Mayor Grace and John Foord, of The Brooklyn Union.

### PRIVILEGES OF THE PRESS.

**Another Case in Which the Reporter Claims Exemption.**

NEWARK, N. J., Dec. 13.—William C. Reick managing editor, and John McQuillen, a reporter on The Press, were before the grand jury Friday to give evidence in regard to the numerous prize, cock and dog fights, which have occurred in this vicinity recently, and of which the police have been unable to obtain any clew. The gentlemen gave the jurors such information as they thought consistent with their position, but refused to divulge the names of those who participated or the location of the meetings, holding that they occupied the same position toward their informants that a doctor does to his patients, a lawyer to his client, or a priest to his parishioner. The jurors will report to Judge Depue Monday, who will very likely hold the witnesses in contempt.

**The Proposed Nicaragua Canal.**

WASHINGTON CITY, Dec. 13.—Arrangements have been made at the navy department for an expedition to survey the proposed route of the Nicaragua canal. The expedition will be under the command of Civil Engineer A. G. Mercoal, who has before been on a similar duty, and he will be assisted by Civil Engineer Robert E. Perry, of the navy, and Ensign W. J. Chambers. The latter officer was a member of the Greely relief expedition, and commanded the Loch Garry.

IT'S AWFUL

TO THINK of the intense suffering CONSTANTLY endured by the victims of NEURALGIA

IT'S PLEASANT TO KNOW that relief and cure for this disease *can* be speedily secured by the use of

ATHLOPHOROS

And that hundreds are now rejoicing in THEIR FREEDOM FROM EXCRUCIATING AGONY.

YOU are NOT asked to accept this statement as if made by the manufacturers only, but you *are* asked to read the testimonials of those who having TRIED IT have been CURED!

"I have been a terrible sufferer from Neuralgia which would affect my head and face. Last Sunday evening I had an attack in my face and could not sleep—in fact I walked the floor all night. The pain was terrible. I would lie down a few minutes and then get up and walk—so I went it all night. As soon as it was light in the morning my daughter started out to get something to relieve me. The doctor told her that Athlophoros was the best thing known. She got a bottle, after taking two doses the pain all left me as by magic, but my face was so sore I could not touch it. Not a particle of pain have I had since, and you can rest assured I shall always keep Athlophoros in the house."

Mrs. DEITRICH, 16 Hudson St., New Haven, Ct.

"I have used Athlophoros in my family for Neuralgia of the heart, and have seen it used in two other cases with success."

L. WARNER, Hutchinson, Wis.

"My wife has suffered with Acute Neuralgia in the head. The last time she was taken with the terrible disease we used Athlophoros and its success was wonderful. After taking two doses the pain all left her, and, instead of being laid up for two or three days, she was all over it in three hours and has not had an attack since."

JOHN AUGER, New Haven, Conn.

"My wife had Neuralgia in some parts of her body nearly all the time. I bought a bottle of Athlophoros and gave her two doses and it has helped her."

WM. H. GORDON, Norwich, Conn.

"It is with pleasure I recommend your Athlophoros to any one who may be suffering with Neuralgia. I have been subject to the disease for years and never found anything to give relief, and the disease would attack me when I least expected it and I would be obliged to drop all work and give up to it. The last attack I had, a friend advised me to try Athlophoros, and I did so; its effect was truly wonderful. When I took the first dose I had no faith, but after taking the second dose I felt as all through me, and my pain was gone, and in three hours after being taken with the disease, I was able to resume my work, and have not been troubled with it since."

THE GREAT REAPER GATHERS A GOODLY HARVEST.

**Twenty-Seven Oystermen Overtaken by a Storm and Go Down Among the Dead Men—Three Girls Suffocated at Detroit.**

BALTIMORE, Md., Dec. 13.—The storm on the Chesapeake bay, and its tributaries on Tuesday last, proves to have been much more severe than was at first supposed, the general impression having been that the damage was confined to the small craft on the bay, but reports brought to this city Friday by the officers of bay steamers, and oyster boats, show that the storm did fatal work in the lower bay, and Rappahannock river. Twenty seven lives are known to be lost, and several persons are reported missing, so that there is a likelihood that the number lost may be increased. The storm approached from the northwest, and its track was up the Rappahannock river, the waves running twenty-five feet high, with the wind blowing fifty miles an hour. When the storm came up the tongmen were at work near Monoskin in the Rappahannock, and had their small skiffs, batteaux, flat-bottom scows and canoes, quite heavily loaded with oysters. The men tried to scud before the wind, but the result was that many of the boats filled with water and sank, drowning twenty men. One man, who clung to the bottom of a capsized canoe, was driven ashore. Four men were drowned in the Curtenon branch and three on the Middlesex shore of the Rappahannock. Nearly all the drowned are colored men. Thus far eleven bodies have been washed ashore. Joseph Scott, colored, was drowned by the capsizing of a canoe near Polk's wharf, Cockerill creek, Va.

**Three Girls Suffocated.**

DETROIT, Mich., Dec. 13.—At 5:15 Friday evening the girls employed in the second story of Gray, Toynton & Fox's candy factory, on Woodbridge street, were terrified by seeing fire break out in the rear of the department in which they were employed. A rush was immediately made for the fire escape at the front of the building. The upper sash of one of the windows had been lowered, and the young women had to climb over it in order to reach the balcony. One, in descending the ladder, slipped and fell to the pavement and was seriously injured. Three girls were then seen to advance to the window, and immediately afterward a volume of fire and smoke burst out over their heads and they were soon hidden from view. The firemen arrived in large force, but the flames had already made such violent progress that it was some time before an entrance was gained. When the fire in the second story had been partly subdued, the bodies of the three girls were discovered. One lay in the middle of the floor. Her face was badly burnt. The other two were stretched upon benches just beneath the partly open window. Their faces were blackened, and presented a saddening sight, but the flames had not touched their bodies. Their names are: Miss Annie Lynch, aged 30; Miss Bertie Messmore, aged 18, and Miss Polglase. It is rumored that four more girls are missing, but up to a late hour this report has not been verified. The loss will reach $50,000, partially insured.

**Settling an Old Lawsuit.**

ST. LOUIS, Dec. 13.—In the United States district court, Friday, Judge Treat sustained a motion to quash the execution in the case of the United States against Daniel H. Donovan. Donovan was the collector of this port in 1861 and 1862, and at the expiration of his term of office he was sued on his official bond for a certain amount collected by him, and which, it was claimed, he was not allowed to appropriate to himself. A judgment was rendered against him for the amount with interest. The principal sum was paid into the treasury, but not the interest. An execution was issued against Donovan's property to recover the interest amounting to about $600, and interest on that amount, which amounted to about $700 more. A motion was filed to quash this execution on the ground that the government had been guilty of laches, and besides there were other equities in the case that warranted consideration. Judge Treat sustained the motion and ordered the execution quashed.

**A Brilliant Career Stopped for a Time.**

BOSTON, Dec. 13.—Three weeks ago Henry W. Meyers, aged 18 years, robbed his mother of a bank book calling for $870. An acquaintance of his named Lizzie Jones personated his mother, at the Provident Savings bank, and drew the entire amount. Subsequently during the absence of his parents young Meyers removed all the furniture from their home, and having an old man to personate his father, he succeeded in placing the furniture as collateral with the Boston Loan company for a considerable sum. Meyers and his accomplices are in custody.

**Shot His Wife's Father for Interfering.**

ST. LOUIS, Mo., Dec. 13.—Alf Parks and his young wife, living near Albany, Gentry county, quarrelled, Friday, and Parks threatened to chastise her. Her father, W. E. Elling, interfered and Parks shot the old man, who, it is thought, cannot live. Parks fled, and is still at large. The excitement is intense, and a posse of citizens are searching for the murderer. The parties are all prominent and well-to-do farmers.

**Hung Himself with a Bell Rope.**

WABASH Ind., Dec. 13.—Friday afternoon Fred Baignee, a house painter at Peru, fifteen miles west of this city, committed suicide by hanging himself in the court house tower, using the bell rope to facilitate his shuffling off. No cause is assigned for the deed, though it is said that he had recently been jilted by a young woman, and had been despondent for several days.

**His Slippery Glass Eye.**

"The Squire," says the author of "The Hoosier Schoolmaster," wore one glass eye and a wig. The glass eye was constantly slipping out of focus, and the wig turning around sidewise on his head whenever he addressed the people of the 'Flat Creek District.' Sad spectacle. Parker's Hair Balsam preserves and promotes the growth of the natural hair. It also restores the natural color to hair which has faded or become gray. Clean, elegant, beneficial, highly perfumed.

Edwards' Balm of Life is sold by Palmer & Stevens. Trial bottle free.

**An End to Bone Scraping.**

Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctor told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at 50 cents a bottle, and Bucklin's Arnica Salve at 25c per box by F. Sherer & Co.

## THE NEGRO RACE.

AN INTERVIEW WITH REGISTER BRUCE ON ITS FUTURE.

**Progress Already Made and Comparison with Other Races—Necessity of Education and the Desire for Knowledge—Blair's Bill.**

CHICAGO, Dec. 13.—United States Register B. K. Bruce, of Washington City, was at the Palmer house Friday, and to a reporter declined to talk politics, but being asked if he would express himself regarding the condition of his own race, replied:

"Yes, that is a social, and not a political question; more than that, it is a discussion of a modern miracle. It is only twenty years since the wand of freedom touched the black man, and his shackles fell to the ground. It was a great thing—a noble step, but it left him, while no longer a slave, only a helpless man in the wilderness, hungry and naked, no shelter, no home, nothing but his hands to protect him, a dependent being, forced by nature's demands to sustain himself and his family, and in a community that was practically hostile to him in his new condition. What has in the history of this world been the fate of races amid such environments? They have perished, been obliterated or gone to the wall. But his old master found that he was still essential, that he was wanted to cultivate the soil, that he was a necessity; and he went to work. Twenty years have passed since then, and he is yet at work—patiently, uncomplainingly, laboriously pursuing his destiny. And has he not made progress? Let the last report of the comptroller of Georgia answer that question. According to that report, one acre out of every fifty, cultivated in the state was owned by a black man, and the same holds good in other southern states. That is material progress, and shows that he is assuming the responsibility of a citizen in fact as well as in name."

"And intellectually, Mr. Bruce?"

"Ah! that is the grand problem of the race, but he will solve it as well. It is a slower process of evolution, but he has an inspiration that will lead him on. He is animated by an inordinate thirst for knowledge, and his pride does not stand in the way. When he makes his contracts for his labor he insists that the little log school-house shall be provided as well, no matter how rough or how mean it may be, if it will serve to shelter the teacher and his children. He knows the want of education and the disadvantage that the lack of knowledge is to him, and he is determined that his progeny shall have a fairer start in the race. The last census shows 70 per cent. illiterate blacks, and there is nothing surprising in that when it is remembered that it is only twenty years since he was forbidden to know anything. The next census will tell a different story. To-day he is on a plane in illiteracy with the poor white, but he will not be long, and the report of the superintendent of schools in Arkansas tells why. It says: 'The poorer white will not send his children to school unless he can clothe them and put them on a par in all respects with the better class; but the negro children come, in rags and tatters, or wearing a single garment, provided with a piece of corn bread for a lunch, and not embarrassed by any social distinctions, and in this way they acquire the rudiments.'"

"But does not education make them restless and dissatisfied with their condition?"

"No more than it does the white, and, more than that, it is a necessity to them. They are, in their ignorance, at a great disadvantage—fleeced and cheated and outbargained on all sides. Give them sufficient learning to put them on an equality with those whom they trade, and it will be a great step forward. The one drawback at present is their poverty and their inability to procure teachers and pay them."

"Would not the passage of the Blair educational bill remedy that?"

"It would, and I am earnestly in favor of it, no matter how much it may be emasculated, nor what conditions it may impose. The states themselves are unable to grapple with it, and the general government, for its own protection, must. The ghost of 'state's rights' rises up to nullify the beneficent work, but I have hope that even the greatest stickler can be made to see its justice and the germ of good that is in it. * * * * I want to see the Blair bill or something like it passed. It is not only in the interest of my race alone, but in that of every citizen of the United States. The negro is not like the Indian. Civilization destroys the latter, but the negro absorbs it, thrives in contact with it. He is growing in numbers so rapidly that in a few years in at least ten states of the south he will become more than predominating. Make a good citizen of him—he is capable of it—let him educate himself, grow intellectually as well as in other directions, and by thus doing avoid the danger that always lurks latent in large masses of population who are ignorant and irresponsible."

Mr. Bruce said he anticipated the best results from the connection of the negroes with the New Orleans exposition.

**A Reflection on Rome.**

BALTIMORE, Dec. 13.—The Methodist centenial council devoted Friday to the reading and discussion of papers on the church. Rev. D. T. H. Vincent, the Sunday school leader, read a paper on "Possible Dangers to Methodism" and said that the future dangers of Methodism lie chiefly in the present. They lie in her doctrines and organization. He concluded by saying that Methodism should be a gospel to the poor. "Rome looks after the poor. She grinds them down. She has her poor always with her because she keeps them poor. [Applause.] When Rome rules, ignorance and degration reign in the lower parts of society."

**Caught His Foot in the Frog.**

LANCASTER, Pa., Dec. 13.—Hugh M. Boyd, one of the oldest freight conductors on the Pennsylvania railroad, got his foot caught in a switch at Leaman place, Friday morning, and before he could be extricated was knocked down and his leg frightfully crushed from the knee down. As he is 60 years of age, he is not expected to survive the injury.

**Death of an "Underground Railway" Conductor.**

AMSTERDAM, N. Y., Dec. 13.—Chandler Bartlett died here Friday, aged 84. During the slavery agitation he was an ardent Abolitionist, and fed and sheltered many escaping negroes and aided them on their way to Canada.

**Stepped Off a Flying Train.**

MOUNT JOY, Penn., Dec. 13.—As Mrs. Mary L. King, of Camden, N. J., was on her way to Canton, Ohio, Thursday evening, she arose, and in mistake passed out the platform door. The train was going at a speed of forty miles an hour. She was hurled down an embankment into a ditch, where she lay unconscious until Friday morning, and died of her injuries at noon.

Twenty-one deaths from cholera occurred in Paris last week, all in the eastern part of the city.

## WRETCHED RUSSIA.

**The Empire in a Sad State—Ominous Nihilist Activity.**

VIENNA, Dec. 13.—Accounts received from St. Petersburg represent the state of affairs in Russia, concerning which the Russian press is allowed to say nothing, as being particularly disquieting just now. Arrests on a large scale have been effected in rapid succession for some weeks past. An unusual number of detectives and spies are meandering or skulking about St. Petersburg. Count Tolstoi is guarded within his dwelling, in the ministry, and when he goes any where. It is remarked in St. Petersburg that it is a rare thing for a minister of the interior to be so secluded and retiring. The government is reported to have received information which leaves no doubt that the Fheliaboff circles are at work again, and that consequences may follow—dwarfing the general activities of Russian conspiracy into complete insignificance. It is stated that Count Tolstoi learned that the Jews had entered largely into the ranks of the Nihilist conspirators, and that his information caused him to issue an order Thursday for the expulsion of all Jews residing in the large cities with foreign passports, unless they also possess special governments of residence.

## LOCKED IN A BOX-CAR.

**Some Young Americans Who Will Probably Have a Hard Road to Travel.**

CINCINNATI, Dec. 13.—On Wednesday William F. Strong, living in Hartwell, packed household goods in a freight-car, and it started in the evening for Jacksonville, Fla. The next morning, it was discovered that three young boys of the village, sons of excellent parents, had disappeared. Then it leaked out that they had concealed themselves in the car, and had started for Florida, where they expect to make their fortunes. Before going they provided themselves with twenty loaves of bread, two dozen bottles of beer, a big roast of beef, and a cask of water. The car will be two weeks upon the road, and unless the boys are released by some providence they will certainly be starved by the time they reach their destination. Of course the car is locked and it is impossible for them to get out unaided.

**St. John Talks Back.**

BLOOMINGTON, Ills., Dec. 13.—Rev. John C. Hanna, of this city, has received a letter from Governor St. John bearing upon the question of his apostacy during the recent political campaign. He writes as follows: "The whole story of the Republican papers that I, at any time in my life, either directly or indirectly proposed to sell out to the Republican, Democratic, or any other political party or organization, is simply one of the many infamous and malicious lies for which the Republican press during the campaign just closed has been noted. If I had desired to have sold my principles for money or office I could have done so years ago, and would not have waited to negotiate with a party that is morally and financially bankrupt." Mr. St. John declares that his campaign expenses were paid by the national Prohibition party and that he gave his services without money and without price. He also says that the political party that stands in the way of the movement will get hurt, and that hanging men in effigy and indulging in vilification and falsehood is not argument in this age of free schools.

**The National House.**

WASHINGTON CITY, Dec. 13.—The house of representatives passed a concurrent resolution for a gathering of senators and representatives at the White House next Tuesday, to witness the opening of the New Orleans exposition by the president, by means of electricity. Warner, of Ohio, offered a resolution, which was adopted, to expunge from the official proceedings of last July a speech by J. D. Taylor printed by leave in The Record, which reflected on the pension committee. This led to a long personal discussion between Warner and Taylor in which both gentlemen were encouraged by their friends, and in which many sharp passages occurred, at the conclusion of which the resolution was adopted and the house adjourned until Monday.

**The Lowest Depths of Infamy.**

LYNN, Mass., Dec. 13.—The case of Louis G. Hollis, who is now on trial for subornation of perjury in procuring false testimony against the chastity of his wife, is developing sensational features. Friday Benjamin J. Soper testified that his evidence previously rendered implicating Mrs. Hollis with one John Bond was entirely false; and that he was led to contradict it from having experienced religion. He and several others made affidavits that Hollis had hired them to testify falsely. The case was sent to the superior court.

**Threw Creosote in Her Rival's Face.**

NORWICH, Conn., Dec. 13.—Miss Florence Miner, who threw creosote into the face of Miss Twomey, was bound over to the superior court in $1,000 bail Friday. She is now in jail, but her father, a rich farmer of North Stockington, is expected to furnish bonds for her as soon as he can be communicated with. Miss Twomey was too ill to appear at the trial and is in danger of losing her eye. The penalty for the offense with which Miss Miner is charged is not less than seven nor more than ten years in the state's prison.

## THE IOWA COLLIERS.

CITIZENS OF ANGUS SAY THERE'S NO DANGER,

**And Declare the Sending of Troops Unnecessary—Cause of the Excitement —The True Inwardness of the Strike—Other Troubles.**

DES MOINES, Iowa, Dec. 13.—The militia arrived at Angus, Friday, and were taken immediately to the Keystone mine. There were no demonstrations made. Eighteen of the shipped miners went to work under their protection. The governor's guards were sent home on the first train. Everybody at Angus condemns the sending for the militia. A delegation of citizens left for Des Moines at at 6 o'clock in the afternoon to urge Governor Sherman to withdraw the Stuart company. They took a petition signed by nearly every business man in Angus, stating that there has been absolutely no violence and no need of troops except to intimidate citizens.

William A. Morris, a miner, made a short speech Thursday, and told the shipped men that they must leave or they would be taken away. This was the only pretext for ordering militia. The miners are quiet and determined. It is reported that the Swedes alone are willing to yield, all others being firm. Mr. Foster, superintendent of the Climax mine, who was so pressing in his demand for troops, announces that he will soon leave Angus permanently. All is quiet as Sunday. The people ridicule the reports sent to newspapers about a dangerous riot. Mayor Morris has appointed ten assistant marshals to reassure insurance companies, some of which have canceled their policies. The rumor is that more miners will be shipped in soon.

The question involved in the strike is a little fine. The mines offered 87½ cents, but the men demanded $1 a ton. The operators then offered to split the difference, and to give work to all who would go to work when the whistle blew, but as this was announced by placard, and not to the miners' committee, the strikers decided to stay out till the committee was recognized, which has not been done. The strikers generally have purchased homes of the companies, and several have half paid for their purchases. The mines are owned by a syndicate, who are represented in both the Milwaukee and St. Paul, Northwestern, Manitoba and Minneapolis, and St. Louis.

**Troubles of Telegraphy.**

CHICAGO, Dec. 13.—Disgusting reports have been sent broadcast over the country indicating that a strike among the telegraph operators was a probability of the near future, on account of the cutting off of pay for extra time by the Western Union. A reporter had a talk with J. B. Tubbs, district manager for this corporation in this city. Mr. Tubbs said: "We are doing just what every corporation is doing that has a desire to continue in existence. We are looking sharply to our pay rolls, and reducing expenses wherever it can be done. We are not reducing salaries at all, but are cutting off overtime. The reduction will not average 10 per cent. on the pay of anyone. I know where railroads have shut down entirely on Saturdays, to reduce expenses, while others have just put their men on half time. We are trying earnestly to get along without doing this."

"Do you mean to say that your business has been so reduced as to demand such an emergency?" asked the reporter.

"Yes," replied Mr. Tubbs, "all business has been reduced, and our business follows the others. Look at the board of trade, for instance, or the grocery, or other business and see how it has been affected."

A dispatch from New York gives a statement of the head of the Western Union office at that point to the same effect, and the declaration that as soon as business improves everything will go along as formerly.

**Shrinkage, Dull Trade and Bad Debts.**

NEW YORK, Dec. 13.—H. J. Goodwin & Co., wholesale woolen merchants of 63 Worth street, failed Friday and the members of the firm, Henry J. Goodwin and Romulus F. Hudson, made a general assignment, giving preferences for $99,553. Their condition last February in their statement to the trade showed assets of $330,000, composed of stock, 141,000; accounts receivable, $150,000; bills receivable, $14,000; cash, $4,000; liabilities, $213,000, and surplus, $120,000. Bradstreets reports the firm's liabilities at about $300,000, and the actual assets about $200,000.

Mr. Bird, the assignee, said that the liabilities were about as above stated. The failure, he said, was the result of shrinkage and depreciation in values, dull trade and bad debts. Many of the creditors had called and expressed sympathy for the firm, and Mr. Bird thought they would be able to obtain a settlement of their affairs within the next thirty days.

**Cigarmakers' Strike.**

PHILADELPHIA, Pa., Dec. 13.—The cigarmakers employed in the manufactory of J. Portuondo, struck Friday evening against a reduction of $2 per thousand. They had been receiving $10, and were asked to work for $8. The firm employs over 100 hands.

**The Element for a Big Row.**

BERLIN, Dec. 13.—It is stated that Earl Granville refused Prince Bismarck's request that England should acknowledge Germany's exclusive rights in the Angra Pequina territory, as laid down by Herr Luederitz. Earl Granville later replied to Bismarck that England considers the claims of Germany respecting the Angra Pequina territory as encroaching upon the rights of England. Bismarck at that time informed Granville that he was unable to recognize the right of Cape Colony to grab Walfisch bay, and subsequently repeated this.

**A Policy of "Benevolent Condescension."**

EDINBURGH, Dec. 13.—Henry Campbell Bannerman, chief secretary for Ireland, in a speech at Sterling, expressed his regret that the policy of the government toward Ireland should be one of benevolent condescension. The Irish, he said, are a proud and sensitive people, and naturally resent such an attitude. He asserted that if the government would give to Ireland the laws and institutions which her needs required, and to which the country was peculiarly adapted, the result would follow that Ireland would be as loyal as Scotland.

**Agreed to Accept the Offer.**

PROVIDENCE, R. I., Dec. 13.—A meeting of depositors of the Franklin Institution for Savings, which is a creditor of the Sprague estate, resolved Friday that it was desirable that the receiver should accept Trustee Chaffee's offer to pay over to the bank with the consent of the court $215,000 to settle the litigation against the Baltic mill.

**German Elections.**

BERLIN, Dec. 13.—Supplementary elections for deputies to the reichstag were held in the Fifth and Sixth districts of Berlin Friday. In the first named Baumbach, Liberal, received 8,643 majority, and in the latter Pfanna-Kuch, Socialist, was elected by a majority of 30,829.

**A Walking Skeleton.**

Mr. E. Springer, of Mechanicsburg Pa., writes: "I was afflicted with lung fever and abscess on lungs, and reduced to *a walking Skeleton*. Got a free trial bottle of Dr. King's New Discovery of Consumption, which did me so much good that I bought a dollar bottle. After using three bottles, found myself once more a man, completely restored to health, with a hearty appetite, and a gain in flesh of 48 pounds."

**Mrs. Smith's Case, and what the Rev Mr. McKenstry has to say about it.**

TO THE PUBLIC: I have been a fearful sufferer for fifteen years, most of the time with what has been called Eczema or Salt Rheum, Psoriasis and Lepra, and the like and have always been told that there was no cure for me, and have been so discouraged that *I had as soon die as live*. I have been so badly afflicted sometimes that there was not the smallest spot from the crown of my head to the soles of my feet that was not diseased and as red as crimson. It would commence in small white spots, which had a silvery appearance, but were not deep, but if I attempted to heal them, or soon after their first appearance, they would burn and run together until there was a complete dry, red scale, which would become so inflamed as to crack and look fiery and angry, and the burning sensation would be almost intolerable.

I was at times so lame that I could scarcely get about, and could not dress myself without assistance. I have tried many remedies, and have paid $100 in a single instance to a physician, but have ever obtained only temporary relief. Although helped for a time, I soon relapsed again to be as badly troubled as ever and during the winter of 1881 and 1882 I suffered so much as to be entirely discouraged. Last June, however, I was advised by Elder and Mrs. L. C. McKinstry, who are well known in these regions, to try your CUTICURA REMEDIES; and I felt somehow a little courage, from their favorable opinion of them, to try their virtue. About the second week of July last I commenced taking the remedies, and within six weeks I began to see a permanent improvement, until now (Oct. 7) I am about as good as new, and my flesh is as the flesh of a child.

MRS. BENJ. SMITH.

I certify that the above statement of my wife is correct, and I join with her in expressing my gratitude for the great benefit she has received.

B. SMITH.

I certify that the above statement is correct. Mr. Smith is a prominent man in this community, where he lives. He is a well-known dealer in stock, and his statement, with that of his wife, is fully entitled to credit.

Done at Standstead, Province of Quebec, this twenty-seventh day of October, 1882.

L. C. McKINSTRY, *Minister of the Gospel.*

LATER.—I have seen Mrs. Smith recently and believe her to be thoroughly and permanently cured.

**Spring Without Blossoms.**

**Late in Life to Look for Joy—Yet Never Too Late to Mend.**

Readers of Hawthorne's "House of Seven Gables" will recall the pathos with which poor Clifford Pyncheon, who had been unjustly imprisoned since his early manhood, said, after his release: "My life is gone, and where is my happiness? Oh! give me my happiness." But that could be done only in part, as gleams of warm sunshine occasionally fall across the gloom of a New England autumn day.

In a letter to Messrs. Hiscox & Co., Mr. L. H. Titus, of Pennington, N. J., says:

"I have suffered untold misery from childhood from chronic diseases of the bowels and diarrhœa, accompanied by great pain. I sought relief at the hands of physicians of every school and used every patent and domestic remedy under the sun. I have at last found in PARKER'S TONIC a complete specific, preventive and cure. As your invaluable medicine, which did for me what nothing else could do, is entitled to the credit of my getting back my happy days, I cheerfully and gratefully acknowledge the fact."

Mr. F. S. Wells, who needs no introduction to the people of Jersey City, adds: "The testimonial of Mr. Titus is genuine and voluntary: only he does not adequately portray the sufferings he has endured for many years. He is my brother-in-law, and I know the case well. He is now perfectly free from his old troubles, and enjoys health and life, ascribing it all to PARKER'S TONIC."

Unequalled as an invigorant; stimulates all the organs; cures ailments of the liver, kidney and all diseases of the blood.

### Brieflets

—Consult the church directory.

—Another very light snow storm this morning.

—The Odd Fellows and their families will enjoy a social dance at Odd Fellows hall this evening.

—Webb & Hall have the boss stock of watches, and no mistake. All styles and qualities, and at prices that cannot fail to please you.

—Night officer McGinley captured three tramps this morning at half past three o'clock and took them down to the county jail for safe keeping.

—Our streets were well filled with people and teams from the surrounding country to-day, and our merchants did a very lively business in trade.

—In order to meet duties enjoined upon him by Presbytery, Rev. Wm. F. Brown exchanges for the Sabbath with a minister from Beloit, who is called an able preacher of the truth.

—Miss May Clark entertained a party of young ladies and gentlemen at the home of her mother, Mrs. Agnes Clark, 19 North Bluff street, last evening, and a most pleasant evening was spent.

—Snow storm No. 4 seems to have passed over us, and yet there is not enough of the "beautiful" to cover the ground, and we are likely to have the holiday season pass without the accustomed sleighing.

—An interesting rhetorical exercise, interspersed with music, was given yesterday afternoon by the second grade high school class. The class consists of fourteen members, and an interesting programme was very creditably executed.

—The trial of the case of A. J. Russell vs. the Janesville Pickling and Packing Co., was commenced in the circuit court this morning. The referee's report is being read, and it will probably require several days to go through that document

—It is the opinion of most people in this city who are acquainted with Will A. Harrington, that he is better fitted for a term in some insane asylum, than for a prison cell; therefore, people should not be too free in condemning the unfortunate man until his sanity is established.

—Three vagrants, the father and two sons, were waltzed into the august presence of the judge of the municipal court this morning by Officer McGinley, who blandly remarked to the judge that "the woman gave him the slip." Two days each on a bread and water diet.

—Mr. Charles K. Kimball, of Lima, and Miss Ida Wilder, of Harmony, were happily united in marriage at the residence of the officiating clergyman, Rev Dr. M. G. Hodge, of the Baptist church on Thursday, December 11th, and it is now in order for their numerous friends to extend congratulations.

—Prof. Harry Phillips will give an exhibition of fancy skating at the roller rink to-night. The Bower City band will furnish the music. Prof. Phillips has won an enviable reputation as a fancy skater, and the exhibition is well worth seeing. The ball will undoubtedly be well-filled.

—Yesterday a cloak, belonging to one of the pupils attending the high school, was taken from the wardrobe of the school building and carried away. The person taking the cloak is requested to return it before the city marshal introduces himself with the necessary papers to return the cloak and place the "jewelry" on the thief.

—The farm bought by Mr. Joseph Bevins, as reported in the Gazette yesterday consists of 180 acres instead of 80 acres. The firm of Wheeler & Stevens this morning made another important sale in the town of La Prairie, of a 200 acre farm to Mr. Archie McClellan, for the snug sum of $10,000. Let the good work continue.

—The village of Milton shows very little mercy on the tramping fraternity—This morning the village marshal arrived at the jail with two half grown specimens of humanity who had been condemned by a Milton justice of the peace, and sentenced to confinement in the county jail for ninety days each. This will take them through the winter, just what a majority of that class of beings most want—a good boarding house for the winter.

—The tickets for the "charity ball" to be given by the sack company next Thursday evening at the Guards' armory, are selling very rapidly, and the indications are that the party will be a most successful one. The Janesville Guards have volunteered to give an exhibition drill on that evening, for the benefit of those in attendance at the dance. The members of the Sack company are pushing the arrangements, and will surely entertain all who purchase tickets and put in an appearance.

—We clip the following from the Colorado Springs Daily Gazette of December 3d: "Born to the wife of Dr. W. L. Bartlett, on Tuesday, December 2d, a son. In the new firm of Bartlett & Son the senior will continue to be the working partner, while the junior will be—anything but a silent one. Mother and child doing well, with husband and father correspondingly happy." Mrs. Bartlett will be readily recalled, in musical and social circles, as Miss Aggie Andrews, who spent some years in our city and graduated at our high school in the class of '76. Her many friends offer congratulations.

—Mr. Thomas Tennant has taken the contract to grade the hill on east Milwaukee street, commencing just above the German church and extending to the residence of Mr. A. C. Bates. The job will be commenced at once and by spring the old hill which has been an unsightly object on that street for so many years, will be laid out in building lots, which will be improved and add much to the appearance of that part of the city. The hill is the property of Mr. Michael Dawson, and he is fortunate in securing the service of Mr. Tennant whose reputation for grading is second to no contractor in the city.

—Another important enterprise will soon be started in Janesville. For a long time the people have demanded more room for summer gatherings, such as concerts, festivals, and so on, and also for mass meetings. The demand will be supplied. A company of enterprising business men have secured the lots extending from Norcross' new block down to the lower bridge, and from River street to the river, on which a rink will be erected. The people of Janesville have long since felt the need of a rink, and the Gazette is glad to state that one will shortly be built, and managed by some of the most substantial business men in the city. They are to be thanked for their enterprise, and will certainly receive good dividends for the investment.

—There was a gathering of ladies at the home of one of our prominent business men over on Madison street, first ward, last evening, but for just what purpose, our reporter failed to ascertain. It appears that the ladies held a secret conclave of some sort, excluding everything in male attire from a small boy to the "man of the house." It was rumored in the neighborhood, when the men folk arrived at home and found no supper ready, and the women folk "out," that an association was being formed, as a sort of "auxiliary" to the business men's association, where the wives of the business men could gather and while away the long winter evenings in a manner best suited to their tastes. Our informant says the doors of the meeting room were securely guarded, and the business was conducted in such a low tone of voice that he was unable to "catch on" to the regular order, but he was sure that some such game was being planned.

### THE BUSINESS MEN.

**A Permanent Association Formed and Officers Elected.**

The business men of Janesville assembled in the common council chamber last evening, pursuant to adjournment, for the purpose of forming a Business Men's Association. Mr. Stanley B. Smith occupied the chair and called the meeting to order, and Mr. Charles E. Pierce acted as secretary.

The secretary read the minutes of the previous meeting, which were approved.

Mr. M. G. Jeffris, of the committee on constitution and by-laws, made his report, which was amended in several particulars and then adopted.

Mr. H. D. McKinney, from the committee on permanent organizations, reported the following list of officers, with the recommendation that their term of office commence on the second Monday in January, 1885:

President—Dr. Henry Palmer.

First Vice President—Fenner Kimball.

Second Vice President—W. T. Vankirk.

Secretary—Stanley B. Smith.

Treasurer—M. G. Jeffris.

Directors for three years—Charles B. Conrad and Will D. McKey.

Directors for two years—Victor P. Richardson and Pliny Norcross.

Director for one year—T. T. Croft.

Mr. Stanley B. Smith and Captain Pliny Norcross declined the offices for which they had been named, and Mr. Chas. E. Pierce was substituted for secretary and Mr. Richard Valentine for director, and the officers were then unanimously elected as above.

Mr. E. B. Heimstreet, from the committee on rooms, reported that the most convenient rooms to be obtained at present were in the Phoebus block. The committee also presented their estimate for fitting up suitable rooms, and the running expenses. Action on the report was postponed until the regular meeting in January.

Mr. George G. Sutherland, from the committee on securing members, reported that sixty-eight names had been signed to the paper in circulation, and, on motion of Mr. H. D. McKinney, the paper was left with the committee to secure more members.

On motion of Dr. Henry Palmer, the officers-elect were authorized to take such steps as should be necessary to legalize the association and have it incorporated.

On motion of Mr. M. G. Jeffris, the association adjourned until January 12th, 1885, unless sooner convened by the chairman.

### The Grand Army.

The members of W. H. Sargent Post No. 20, Grand Army of the Republic, held a regular meeting last evening at post headquarters, and elected the following officers for the ensuing term:

P. C.—E. S. Hayward.

S. P. C.—J. B. Green.

J. V. C.—H. M. Weaver.

Surgeon—Dr. Henry Palmer.

Q. M.—B. M. Bucklin.

O. D.—L. H. Lee.

O. G.—C. J. Schottle.

Chap—B. R. Hilt.

Delegates to state encampment—Messrs. Pliny Norcross, E. G. Harlow, J. C. Metcalf.

Alternates—Messrs. T. T. Croft, S. C Burnham, W. B. Britton.

Trustee for three years—M. Orall.

The grand encampment of the state will be held in Madison, the date not being fixed. The new officers will be installed into office at the first regular meeting, in January, being the 9th.

### Brilliant Scheme to Raise Money.

WASHINGTON CITY, Dec. 13.—Secretary Chandler has received a communication from a resident of Baltimore, suggesting, as a means of raising funds for the pedestal of the Bartholdi Statue of Liberty, that the marine band be allowed to give a series of concerts in all the leading cities of the country. The suggestion does not meet with favor at the navy department.

### Those Who Went Broke.

NEW YORK, Dec. 13.—There were 316 failures in the United States reported to Bradstreets during the week, against 296 in the preceding week, and 249, 230 and 165 in the corresponding weeks of 1883, 1882 and 1881 respectively.

### Another Big Pension Payment.

WORCESTER, Mass., Dec. 13.—J. F. Hervey, of this city, has just received $10,200 back pension, and is to receive $50 per month as guardian of his son, William F. Hervey, who was a Union soldier, and has been in an insane asylum since the war.

### Refused to Increase Duties.

PARIS, Dec. 13.—The tariff committee of the chamber of deputies has refused to increase the duties upon rice, maize and oil seeds.

### Personal.

—Captain W. D. Cargill, who has been on a trip to Minnesota and Dakota, has returned home.

—Mr. J. D. King, of the United States postoffice department, is in the city, to spend the Sabbath with his family and friends.

—The Rev. Dr. Raymond, president of Lawrence University at Appleton, was a caller at the Gazette office to-day. The doctor will occupy the pulpit of the Methodist church at Fort Atkinson to-morrow.

—Mr. J. C. Plumb, of Milton, left to-day for New Orleans, where he will take charge of the Wisconsin fruit exhibit at the world's exposition. Mr. Plumb's long experience as a fruit grower will enable him to well represent the horticultural interests of the Badger state. The readers of the Gazette will have the pleasure of hearing from him occasionally by letter.

—Mr. Archie Galbraith, of Galbraith Bros., importers and breeders of Clydesdale horses, etc., will leave next week for New Orleans, taking with him some twelve or fifteen horses for exhibition at the great international fair. He will also take along a few of their imported Shetland ponies. Mr. Galbraith will remain in the south for some time, in the interest of the firm.

—Mr. L. Button, superintendent of the Button fire engine works at Waterford, New York, is in the city and will remain over Sunday. Mr. Button is in the west in the interest of his company, and this afternoon was examining old No. 2 engine, and was greatly surprised to find it in such good condition, free from bruises and jams and remarked to a Gazette representative, that but very few engines which had been sixteen years in service could be found in such excellent trim. He gave the engineer, Mr. Slightam, great praise for having taken such excellent care of it. The new engine will be here on contract time.

### The Weather.

At seven o'clock this morning the thermometer registered 23 degrees above zero. Snowing, with south wind. At one o'clock p. m. the register was 29 degrees above zero. Cloudy with southwest wind. For the corresponding hours one year ago the register was 38 and 48 degrees above zero.

I cannot thank you enough for the benefit I have derived from the use of Athlophoros. I was confined to my bed with rheumatism. Every joint in my body was sore, and hands and limbs badly swollen. The pain was beyond description. A friend brought me Athlophoros. I used it as directed, and found I was entirely cured." Jennie Praeger, Commerce street and Congress avenue, New Haven, Ct.

### JOYFULLY JOINED

HARMS-CLAUSEN.

On Wednesday, December 10th, was celebrated the wedding of Miss Lizzie Clausen, of Afton, Wis., and Mr. Richard Harms, of New York city. The occasion was one of those happy and brilliant affairs that will be remembered by those who were fortunate enough to be there, for years to come. The ceremony was the beautiful one of the German Lutheran church, and was conducted by the Rev. Mr. Biehring, of Beloit. The large double parlors were tastefully decorated with festoons of smilax and flowers. At five o'clock the Arion orchestra struck up the wedding march, and the bridal party appeared and took their positions beneath a beautiful floral ox-yoke design. The bridesmaids were Miss Dottie Clausen and Miss Eda Buchholz; the groomsmen, Mr. Robert Horn and Mr. William Buchholz. The bride was attired in a pearl-colored satin dress cut en train, and trimmed with point lace. She looked the picture of happiness in her bridal veil and orange blossoms. The bridesmaids wore white mull dresses and lace trimmings. The groom and groomsmen wore the conventional dress suit. After the ceremony, the guests congratulated the happy couple, and all adjourned to the dining room, where the tables were loaded with all the delicacies of the season. After supper the orchestra struck up a waltz, and the merry dance was continued into the wee sma' hours. The elegant presents were numerous and valuable. The young couple will make their future home in New York city, whither they go on Thursday next, taking with them the well wishes of a host of friends.
